Strategic Product Leader

Digital Lending & Borrow

D2C Banking Products

AI + Product Analytics

OKR/KPI Leadership

SUMMARY

- Strategic Product Leader with 16+ years of experience delivering digital lending workflows, AI-enabled D2C experiences, consumer commerce platforms, and financial-services product transformation across high-scale U.S. organizations. Directly relevant Borrow experience includes mortgage onboarding, credit approval, DTU process optimization, borrower workflow automation, KPI tracking, and regulated lending delivery at Caliber Home Loans. Currently leading product strategy across LG Electronics' consumer and B2B digital ecosystem, including AI-powered search, recommendations, self-service automation, checkout/payment journeys, post-purchase experiences, and product data modernization. Known for defining product vision, roadmaps, OKRs/KPIs, product-market fit hypotheses, PRDs, GTM readiness, executive narratives, vendor/build-vs-buy decisions, and measurable business outcomes including \$240M+ in scalable solution value, +40% B2C revenue growth, +25% B2B growth, +15% checkout conversion lift, 40% lending-process efficiency gain, and \$1.2M annual automation-driven service savings.

EDUCATION

Master in Information Technology

IGlobal University, VA, USA | GPA 3.85/4.0 | 2017 - 2018

Bachelor in Computer Engineering

C.U. Shah College of Engineering & Technology, Gujarat, India | 2005 - 2009

CERTIFICATIONS

- AI for Product Management - Pendo.io / Credly (Issued Nov 2025)
- Advanced Certified Scrum Product Owner - International Scrum Institute (Jan 2021)
- Agile Certified Product Manager & Product Owner - Scrum Institute (Sep 2020)
- Certified ScrumMaster - International Scrum Institute (Sep 2020)

SKILLS

Product Leadership: Product vision, roadmap ownership, product-market fit, OKRs/KPIs, adoption/usage reporting, executive alignment, product governance, PRDs, user stories, stakeholder management.

Digital Lending & Borrow: Mortgage onboarding, credit approval flows, borrower journeys, loan-management workflows, payments, notifications, cross-sell concepts, regulated financial-services operations.

D2C Growth & Experience: Customer journey optimization, funnel conversion, A/B testing, personalization, checkout/post-purchase experiences, GTM execution, retention and engagement.

AI & Analytics: AI/ML personalization, GenAI tools, self-service automation, product analytics, GA4, Amplitude, Tableau, SQL, Pendo exposure, experimentation and KPI dashboards.

Platforms & Partnerships: SAP, Salesforce, Magento/OMS, Akeneo, Contentstack, Bynder, Coveo, Sprinklr, New Relic, PayPal, Affirm/Klarna, Apple Pay/Google Pay, vendor management, ROI modeling.

Delivery & Team Leadership: Agile/Scrum, SDLC, Jira, Confluence, VSTS, distributed teams, talent development, performance coaching, cross-functional dependency management.

WORK EXPERIENCE

LG Electronics USA Inc. - Nov 2021 - Present | Englewood Cliffs, NJ

Role: Senior Product Manager - D2C Digital Product, AI & Platform Modernization

- Own product strategy, roadmap prioritization, discovery, PRDs, user stories, launch readiness, and lifecycle management across LG's consumer and B2B digital ecosystem, spanning lg.com/us, solutions.lg.com/us, Magento/OMS workflows, checkout, support, and post-purchase experiences.
- Define customer-facing product OKRs and KPI reporting across discovery, checkout conversion, self-service adoption, support response time, average order value, platform scalability, and operational efficiency.
- Spearheaded B2C platform modernization by migrating product information into Akeneo PIM, integrating Contentstack headless CMS, and adopting Bynder DAM, creating an AI-ready product-data foundation and contributing to 40% revenue growth.
- Implemented Coveo AI-powered search and discovery, increasing NPS by 12 points and driving +8% conversion through improved product findability, relevance, merchandising, and customer self-service behavior.
- Rolled out AI recommendation capabilities that lifted checkout conversion by 15% and increased average order value by \$18, connecting product data, customer intent signals, and experimentation into a measurable D2C personalization roadmap.
- Owned Sprinklr self-service chatbot lifecycle from discovery through post-launch optimization, reducing support response time by 60% and generating approximately \$1.2M in annual service-cost savings.
- Defined payment and post-purchase requirements across lg.com/us, including PayPal monitoring, Affirm/Klarna BNPL, Apple Pay/Google Pay wallet considerations, refunds/cancellations, PCI Pal service payments, and New Relic observability for transaction-related failures.
- Led product discovery for B2B Cloud Software Sales on OBS, enabling standalone software sales and bundled SaaS licensing with activation, license status, usage-aware cancellation, exception handling, and lifecycle controls.
- Managed and mentored 3 Product Managers and 2 Business Analysts while coordinating a 56-member Agile delivery ecosystem, shortening release cycles by 30% and sustaining approximately 95% on-time delivery.

Caliber Home Loans / Tavant Technologies - Dec 2019 - Nov 2021 | U.S.

Role: Senior Product Manager - Digital Mortgage & Borrower Platforms

- Led product discovery and delivery for regulated mortgage onboarding, credit approval, DTU process optimization, and borrower-facing operational workflows across a digital lending environment.
- Simplified borrower signup and lending workflows, contributing to a 40% reduction in processing time through journey redesign, workflow automation, and improved handoffs across business and technology teams.
- Automated SAP-Salesforce workflows, reducing manual processing hours by 40% and eliminating approximately \$400K in vendor cost while improving data consistency, operational traceability, and reporting visibility.
- Translated lending operations, credit-review needs, and customer journey gaps into BRDs, user stories, acceptance criteria, Agile backlogs, and post-launch KPI reporting across adoption, retention, and process efficiency.
- Partnered with geographically distributed product, engineering, operations, and business stakeholders to manage multiple priorities, remove delivery blockers, and maintain accountability in a regulated financial-services environment.

TiVo Corporation / Tavant Technologies - Dec 2018 - Nov 2019 | U.S.

Role: Senior Product Manager - Platform, Subscription & Client Product Development

- Directed product development initiatives for enterprise clients, defining product vision, strategy, and roadmap for solutions tied to approximately \$60M in projected growth.
- Built onboarding workflows and subscription-oriented operating models, aligning executive stakeholders around an 18-month product roadmap and customer adoption priorities.
- Coordinated Agile sprints, requirements workshops, UX improvements, integration planning, and release readiness across multi-disciplinary teams.

ADDITIONAL EXPERIENCE

Intexture LLP - Jun 2014 - Mar 2017 | India / U.S. clients

Role: Senior Product Analyst - B2B/B2C Digital Solutions

- Provided leadership for Agile software delivery, B2B/B2C business development, client discovery, and implementation-ready product documentation across diverse digital programs.
- Created business requirements, user stories, acceptance criteria, wireframes, process flows, and delivery artifacts using Jira, Trello, and collaborative product practices.
- Integrated Mailchimp API for automated nurture journeys, contributing to a 40% increase in open rates and stronger campaign-to-conversion visibility.

Softweb Solutions - Apr 2013 - May 2014 | India / U.S. clients

Role: Manager - Enterprise Web and Mobility Solutions

- Managed enterprise web, mobility, healthcare, and digital campaign initiatives from requirements through delivery, with focus on stakeholder coordination, solution scope, and project planning.
- Partnered with client, design, and engineering teams to align product decisions, delivery timelines, and enterprise mobility solution outcomes.

i-Triangle Technolabs Pvt. Ltd. - Mar 2010 - Mar 2013 | Ahmedabad, India

Role: Senior Product Analyst - Healthcare, UI/UX & Delivery

- Led BRD/SRS documentation, process optimization, requirement elicitation, UI/UX coordination, product backlog management, and project delivery for healthcare and enterprise web products.
- Facilitated communication across business, design, and technology stakeholders, translating ambiguous needs into implementation-ready artifacts and sprint-ready requirements.

iMobDev Technologies - May 2009 - Feb 2010 | Ahmedabad, India

Role: Software Developer - Chat & CRM Web Application Modules

THOUGHT LEADERSHIP, PUBLICATIONS & RECOGNITION

- Published researcher in applied AI with work across agentic AI orchestration, AI-driven fraud detection and risk forecasting, AI-based supply chain optimization ethics, and AI-driven consumer experience trends.
- Featured speaker at Commerce Media Summit, B2B Connect, Logicbroker, Agentic AI Summit New York, Identity Week America, B2B Atlanta, and Women in Tech Global Conference 2026.
- B2B Online Chicago speaker/panelist on scalable AI playbooks and the evolution toward autonomous commerce in B2B procurement.
- Featured in media and industry forums including CNBC India, Zee Business, and The eCommerce Edge podcast, with a focus on AI-driven commerce strategy and product transformation.
- International Advisory Board Member, ICEASTI 2026, supporting AI, e-commerce, analytics, and research evaluation themes.

BUSINESS IMPACT

40% Borrower processing-time reduction across mortgage onboarding and lending workflow simplification	\$400K Vendor-cost elimination through SAP-Salesforce workflow automation and operational traceability	\$240M+ Scalable solution value across digital commerce, AI, platform modernization, and enterprise workflows
+15% / +\$18 Checkout conversion and average-order-value impact from AI-driven recommendations	\$1.2M Annual service-cost savings from Sprinklr self-service automation lifecycle ownership	56-member Agile delivery ecosystem with 3 PMs and 2 Business Analysts managed/mentored and 95% on-time delivery
